more than sensors + automation

Close to the customer all over the globe ... ... JUMO’s roots lie in its traditions.

JUMO, with its more than 70 years of experience, is a global player in the field of industrial sensor and automation technology. Our distinct innovative strength and advanced technologies allow us to offer you optimal solutions for your requirements. Consistent service and active customer focus mean that you can always rely on us.

www.jumo.net

Product Range
Sensor and automation solutions for your success
Differential pressure transmitters
Flowmeters for vapors, gases, and liquids
Paddlewheel flow sensors
Electromagnetic flowmeters
Flow sensors
Differential pressure transmitters
Pressure transmitters
Pressure transmitters for wireless data transmission
Pressure measuring cells (analog and digital)
Diaphragm seals and accessories
Pressure switches
Process pressure transmitters
Differential pressure transmitters (hydrostatic)
Pressure measuring devices (hydrostatic)
Level probes (hydrostatic)
Floats (mechanical)
Float switches and level transmitters
Differential pressure transmitters
Flowmeters for vapors, gases, and liquids
Paddlewheel flow sensors
Electromagnetic flowmeters
Flow sensors
Intrinsically safe industrial measuring probes (ATEX)
Hygrometric humidity measuring probes
Hygrostats
Capacitive humidity measuring probes
Measuring probes for wireless data transmission

Temperature
Liquid analysis
Pressure
Level
Flow
Humidity

Our services:
- proficient, reliable, fast, and flexible

Manufacturing service
- Customer-specific sensor technology
- Electronic modules
- Metal technology

Information & training courses
- Seminars
- Literature
- e-learning courses
- FAQs

Product service
- Telephone support
- Repair service
- Configuration service
- Software and automation solutions
- Spare parts
- Sales network
- Downloads

Maintenance and calibration
- DAkkS calibration service
- Field service
- Maintenance concepts and contracts
