 2012-August-01

Issued to: JUMO GMBH & CO KG

MORITZ-JUCHHEIM-STRASSE 1,

36039 FULDA GERMANY.

This is to certify that representative samples of

COMPONENT - PROCESS CONTROL EQUIPMENT,

ELECTRICAL.

See Addendum Page

Have been investigated by UL in accordance with the

Standard(s) indicated on this Certificate.

Standard(s) for Safety: Electrical Equipment for Measurement, Control, and

Laboratory Use: Part 1: General Requirements, UL 61010-1

and CAN/CSA-C22.2 No. 61010-1.

Additional Information: See the UL Online Certifications Directory at

www.ul.com/database for additional information

Only those products bearing the UL Recognized Component Marks for the U.S. and Canada should be considered as being covered by UL's Recognition and Follow-Up Service and meeting the appropriate U.S. and Canadian requirements.

The UL Recognized Component Mark for the U.S. generally consists of the manufacturer's identification and catalog number, model number or other product designation as specified under Marking for the particular Recognition as published in the appropriate UL Directory. As a supplementary means of identifying products that have been produced under UL's Component Recognition Program, UL's Recognized Component Mark: *\(\mathbf{N}\), may be used in conjunction with the required Recognized Marks. The Recognized Component Mark is required when specified in the UL Directory preceding the recognitions or under Markings for the individual recognitions. The UL Recognized Component Mark for Canada consists of the UL Recognized Mark for Canada: *\(\mathbf{N}\) and the manufacturer's identification and catalog number, model number or other product designation as specified under Marking for the particular Recognition as published in the appropriate UL Directory.

The final acceptance of the component is dependent upon its installation and use in complete equipment submitted to UL LLC.

Look for the UL Recognized Component Mark on the product.
